

Industrial Door Systems Limited

Environmental Policy

It is **Industrial Door Systems Limited** policy to conduct operations within all applicable legal, moral and regulatory requirements. **Industrial Door Systems Limited** is committed to improving and anticipating all environment issues and to take appropriate initiatives to improve our environmental performance.

- To reduce in order to minimise wherever practicable the generation of waste, and the environmental impact of operations on land, water, atmospheric and any other natural resources.
- To provide employees with information about the environment, to encourage their individual environmental responsibilities at work, home and the community.
- To ensure that operating procedures and practices are in place to implement these principals.
- To continually evaluate these principals to ensure that they remain consistent with our policy of minimising the environmental impact of our activities.

Malcolm Masset is Environmental Co-ordinator with the responsibility to monitor and record all relevant information, undertake Environmental Assessments and to provide necessary and adequate information and training.

Engineers are responsible to ensure work is carried out in accordance to predetermined guidelines.

Technical Representatives are responsible to ensure that all environmental issues are assessed during sit surveys and encompassed in Method Statements and IDS Safe Working Practice.

Manager's responsibilities

Jeff Barnett will have overall responsibility within the company for implementing the general policy, but in addition **each individual manager** will be responsible for the implementation of the policy in the areas for which he/she has management responsibility.
